

WATER RESOURCES DATA - VIRGINIA, 2000

DISCONTINUED SURFACE-WATER-QUALITY STATIONS

The following surface-water-quality stations in Virginia have been discontinued. Water-quality data (daily or periodic samples with collection frequency not less than quarterly) were collected and published for the period of record, expressed in water years, shown for each station. For each station entry, a period of record is provided for each type of record listed. Those stations with an asterisk (*) after the station number are currently operated as partial-record water-quality sampling stations.

[Type of record: C (chemical), T (water temperature), SC (specific conductance), SED (sediment)]
